Biopsy Results

Patient Name: _____ D.O.B. ____/____/____

Site: _____

Results:

- | | |
|---------------------------------------|--|
| <input type="checkbox"/> Benign | <input type="checkbox"/> Atypical Mole |
| <input type="checkbox"/> Precancerous | <input type="checkbox"/> Cancerous |
| <input type="checkbox"/> Rash | |

Recommendations:

- ☐ No further treatment is necessary at this time. Please call to schedule a follow-up if the mole or spot persists or recurs.
- ☐ Your biopsy demonstrated a dysplastic nevus (Atypical Mole) which has some irregularity but considered benign. See Attached Sheet.
- ☐ Please call to schedule an appointment for the following procedures:
 - ☐ Surgical excision. Your appointment should be scheduled for _____ minutes with Dr. _____.
 - ☐ Liquid Nitrogen destruction therapy.
 - ☐ Other: _____

If additional biopsies of suspicious lesions were recommended, please schedule an appointment in a timely Fashion as risks may include possible skin cancer.

Please remember that a full complete body examination is advised every 6 to 12 months along with monthly self-examinations. Please return to the office as soon as possible if you have any new or changing moles or spots.

Sincerely,
